Shareware download bulletin board system (BBS) that would become TucoWS download in 1993 on a library computer in Flint, MI. What started as a place for people who know how to download software became the place to download software for the internet boom. Much faster than anyone could have imagined. Today, TucoWS is the second largest domain name registrar in the world behind Go Daddy and the largest wholesaler of domain names in the world with clients like Shopify and other global website builder platforms. Ting Internet is building fiber optic networks across the U.S. At the same time, we are building the Mobile Services Enabler SaaS platform that powers DISH's entry into the U.S. mobile market. The thing is, we're busy. For the past few years, history, well sentimental, has been the only reason to keep TucoWS Downloads around. We talked about closing the site before. More seriously in 2016, when instead, we decided to go without advertising, keeping the site as a public service. Today is different. TucoWS Downloads are old. The old sites are a maintenance challenge and therefore a risk. Maintaining the tucoWS downloads site pulls people away from the project that is moving our business forward. TucoWS Shots had an incredible run. His retirement is the right move, but that doesn't change the fact that he will always hold a special place in our hearts and history. We are grateful to the thousands of software developers who used TucoWS Downloads to get their software in front of millions of people, driving billions of downloads over 25 years. Thanks.
